## Text Summarization Tool

College life is a beautiful phase where learning goes beyond textbooks and classrooms, shaping both personality and perspective. It is a time filled with new friendships, late-night study sessions, campus events, and moments of self-discovery. Students learn to balance academics with extracurricular activities, gaining confidence, independence, and real-world skills along the way. The experiences of college life—whether it's group projects, cultural fests, or simple conversations with friends—create memories that last a lifetime and prepare individuals for future challenges.
